RJM ARCHITECT JUMP START PROGRAM

UAPSA-SEC CHAPTER

KM. 2 NATIONAL HIGHWAY SURIGAO CITY,
SURIGAO DEL NORTE, PHILIPPINES 8400

Thru: **Mr. Rafie R. Emnace**
Chapter president

Dear Mr. Emnace,

Greetings from RJM Architect.

In line with our commitment to support aspiring architects as they transition from academic learning to professional practice, RJM Architect is launching “**RJM Architect Jump Start**”, an apprenticeship and professional exposure opportunity designed for graduating architecture students and newly graduated aspiring architects.

The program aims to provide young designers with practical and real-world architectural experience through direct involvement in ongoing projects, mentorship, and exposure to the actual workflow of architectural practice. Through this initiative, selected participants will have the opportunity to enhance their technical skills, professional confidence, and industry experience in preparation for their architectural career journey.

The **RJM Architect Jump Start opportunity** may include:

- Seminars and Professional Trainings
- Monthly Allowance
- Site Experience and Assigned (Siargao Projects)
- Exposure to Actual Architectural Projects
- Exposure to Client Meetings and Presentations
- Hands-On Experience in Design Development and Project Coordination
- Mentorship from Practicing Architects and Design Professionals
- Opportunity to Build a Strong Professional Portfolio

In this regard, we would like to respectfully coordinate with your organization regarding the opportunity to present this program to interested graduating students and aspiring apprentices from your institution.

We believe this initiative can serve as a meaningful career jump-start for future architects by providing valuable professional exposure beyond the classroom environment.

Thank you very much, and we look forward to the opportunity for collaboration with your organization.

Sincerely,

Ar. Ryan Jackson B. Miranday
Principal Architect, RJM Architect
